CHEMICO-BIOLOGICAL INTERACTIONS

CONTENTS

VOLUME 63 (1987)

Mono- and bifunctional binding of *cis*-diamminedichloroplatinum(II) to dinucleotides
by A. Försti, R. Laatikainen and K. Hemminki (Helsinki and Kuopio, Finland) 1

Mechanisms of regulation of rat ovarian 7,12-dimethylbenz[*a*]anthracene hydroxylase
by M. Bengtsson, Y. Dong, D.R. Mattison and J. Rydström (Stockholm, Sweden and Bethesda, MD) 15

Induction and repair of DNA single-strand breaks in EM9 mutant CHO cells treated with hydrogen peroxide
by O. Cantoni, D. Murray and R.E. Meyn (Urbino, Italy and Houston, TX) 29

Characterization of tannic acid metabolites formed in vitro by rat liver microsomes and assay of their carcinogenicity by the microsomal degranulation technique
by M.M. Gupta and H.M. Dani (Chandigarh, India) 39

Metabolic activation of 1-naphthol and phenol by a simple superoxide-generating system and human leukocytes
by D.A. Eastmond, R.C. French, D. Ross and M.T. Smith (Berkeley, CA) 47

The oxidation of benzo[*a*]pyrene-7,8-dihydrodiol mediated by lipid peroxidation in the rat intestine and the effect of dietary lipids
by J.D. Gower and E.D. Wills (Harrow and London, U.K.) 63

Detoxication of aliphatic epoxides by diol formation and glutathione conjugation
by J.E. Sinsheimer, E. Van Den Eeckhout, B.H. Hooberman and V.G. Beylin (Ann Arbor, MI) 75

Metabolism and toxicity of anacrotine, a pyrrolizidine alkaloid in rats
by A.R. Mattocks and H.E. Driver (Carshalton, U.K.) 91

Optical and EPR spectroscopy studies on haem arginate, a new compound used for the treatment of porphyria
by G. Sievers, H. Häkli, J. Luhtala and R. Tenhunen (Helsinki, Finland) 105

Changes in autorhythmic heart frequency elicited by redox agents
by I. Wittmann, A. Puppi and M. Dely (Pecs, Hungary) 115

Lethal effects of a linoleic acid hydroperoxide and its autoxidation products, unsaturated aliphatic aldehydes, on human diploid fibroblasts
by T. Kaneko, S. Honda, S.-I. Nakano and M. Matsuo (Tokyo, Japan) 127

Structural and chemical requirements for hydroxychlorobiphenyls to uncouple rat liver mitochondria and potentiation for uncoupling with Aroclor 1254
by K.V. Ebner and W.E. Braselton, Jr. (East Lansing, MI) 139

Formation of reactive oxygen species and of 8-hydroxydeoxyguanosine in DNA in vitro with betal quid ingredients
by U.J. Nair, R.A. Floyd, J. Nair, V. Bussachini, M. Friesen and H. Bartsch (Lyon, France and Oklahoma City, OK) 157

Aziridine biotransformation by microsomes and lethality to hepatocytes isolated from rat
by Y. Hata, M. Watanabe, K. Tonda and M. Hirata (Osaka, Japan) 171

DNA damage by 5-nitro-2-furylacrylic acid, a nitrofuran derivative
by S.N. Chatterjee, S.K. Banerjee, A.K. Pal and J. Basak (Calcutta, India) 185

Model-based relationship between physicochemical properties and inhibitory potency of alkylating 2-furylethylenes on yeast glycolysis
by Š. Baláž, E. Šturdík, J. Augustín, D. Ilavský, D. Végh, L. Stibrányi and J. Kovác (Bratislava, Czechoslovakia) 195
NMR spin-lattice relaxation times of intracellular Na-23 on rat livers and related lipid peroxidation following CCl_4 intoxication
by S. Banni, M. Casu, F.P. Corongiu, M.A. Desi, A. Lai and C. Meloni (Cagliari, Italy) 207
Effects of the peptide toxin from *Microcystis aeruginosa* on intracellular calcium, pH and membrane integrity in mammalian cells
by I.R. Falconer and M.T.C. Runnegar (Armidale, Australia) 215
Identification of metabolites of benzo[*j*]fluoranthene formed in vitro in rat liver homogenate
by J.E. Rice, N.G. Geddie and E.J. LaVoie (Valhalla, NY) 227
The relationship between the effects of drugs on bilayer stability and on protein kinase C activity
by R.M. Epand (Hamilton, Canada) 239
HRP-catalyzed bioactivation of carcinogenic hydroxamic acids. The greater reactivity of glycolyl- versus acetyl-derived hydroxamic acids
by M.D. Corbett and B.R. Corbett (Gainesville, FL) 249
Electron microscopic visualization of DNA single strand breaks
by H.-D. Jungblut, J.J. Strüber and R.K. Zahn (Mainz, F.R.G.) 265
Stabilization of reactive electrophilic carcinogen, benzo[*a*]pyrene diol epoxide, by mammalian cells
by M.C. MacLeod, G. Adair, D. Dickson-Black, T. Pevny and R.M. Humphrey (Smithville, TX) 279
Announcement 291
